SUBMISSION OF WORKS

All proposals will be subject to a peer review process, and accepted and submitted papers will be forwarded for inclusion in IEEE Xplore, provided they meet IEEE Xplore requirements. IEEE Conference Registration Number: 69094.

Authors should take the following into account:

- Original, unpublished articles that have not been submitted simultaneously to another journal or conference, with scientific and technical contributions, are expected.
- All submitted articles will be checked for plagiarism using the IEEE CrossCheck system.
- Articles must be written in English and have a maximum length of six (6) printed pages, including figures, for regular articles.
- Articles must be formatted according to the conference proceedings design on A4 paper, using the IEEE template shown below:
[WORD: Microsoft Word template](#)
[WORD: Abstract format](#)
- Authors must upload their work in PDF format via EasyChair at the link provided below.
- Only accepted and submitted papers will be published in the Proceedings of the ICRE Conference 2026, which will be sent to the IEEE Xplore® digital library.
- Following the review process by the Scientific Committee, authors will receive notification of acceptance of their work. This notification will specify whether the presentation should be given orally or as a poster, based on the evaluation and the availability of the academic program.

Congress topics (although this is not a limitation):

Congress topics (although this is not a limitation):

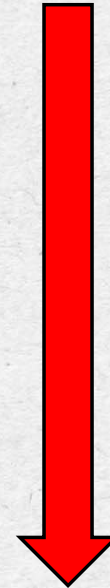

RENEWABLE ENERGIES

- Solar and photovoltaic energy
- Hydroelectric power
- Green hydrogen
- Wind, wave and tidal energy
- Hybrid renewable energy systems: floating solar, wind-wave, wave-tidal, etc.
- Energy-water nexus, wastewater treatment.
- Desalination systems powered by renewable energy.

GENERATION

- Socioeconomic aspects of renewable energies
- Green mobility.
- Energy policy and planning.
- Environment and pollution.
- Energy and environmental risk assessment.

AI AND APPLICATIONS

- Renewable energies for Islands.
- Energy use in the industrial, residential, transport, agricultural, etc. sectors.
- AI in renewable energy.
- Big data analytics for the energy industry.
- Intelligent digital twins in renewable energy systems.

SYSTEMS MANAGEMENT

- Manufacturing in the renewable energy industry.
- Monitoring and control of renewable systems.
- Predictive maintenance in renewable energy systems. Modeling, identification, and simulation of energy systems.
- Electrical energy management
- Energy storage
- Isolated power systems
- Smart grids and integration of renewable energies. Distributed generation.

I International Conference on Renewable Energy. El Hierro 2026 (Canary Islands)

It is an honor to welcome you to the first edition of the **I International Conference on Renewable Energy (ICEREH 2026)**, which will take place on the unique island of **El Hierro (Canary Islands, Spain)** from **November 10 to 13, 2026**.

El Hierro is not only the setting for our conference, but also its protagonist. Known as “**sustainable island**,” this small natural jewel is a global benchmark in the energy transition thanks to the **Gorona del Viento hydro-wind power plant**. Its geographical location, at the westernmost point of Europe, makes it a natural laboratory for innovation. Thanks to its strong commitment to renewable energy, the island has achieved **energy self-sufficiency**, demonstrating that a sustainable future is not only possible, but already a reality.

During these days, we will explore the **advances, challenges, and opportunities in the field of renewable energy**, inspired by the pioneering spirit of the island that hosts us. Join us at this unique event to **connect with experts, share knowledge, and be part of the transition toward a greener future**.

Submission Guidelines

The submission period will open on **March 15** and the **submission deadline** will be **1st July**

Log in to EasyChair for ICEREH 2026

Submission of new papers for ICEREH 2026 (1 International Conference on Renewable Energy, El Hierro 2026) is open.

EasyChair uses cookies for user authentication. To use EasyChair, you should **allow your browser to save cookies from easychair.org**.

New Submission for ICEREH 2026

Follow the instructions, step by step, and then use the "Submit" button at the bottom of the form.

Each author marked as a **corresponding author** will receive email messages from the system about this submission. There must be at least one corresponding author.

Author Information

Title and Abstract

The title and the abstract should be entered as plain text, they should not contain HTML elements.

Title:

Abstract:

Keywords

Type a list of keywords (also known as key phrases or key terms), **one per line** to characterize your submission. You should specify at least three keywords.

Keywords:

Topics

Please select topics relevant to your submission from the following list. Topics are typically used for assigning submissions to reviewers and for conference analytics.

- Renewable Energies
- Generation
- Artificial Intelligence and Applications
- Systems Management

Files

Paper. Upload your paper. The paper must be in PDF format (file extension .pdf)

No se ha seleccionado ningún archivo.

Ready?

If you filled out the form, press the 'Submit' button below. **Do not press the button twice: uploading may take time!**
